

Cooking up a storm

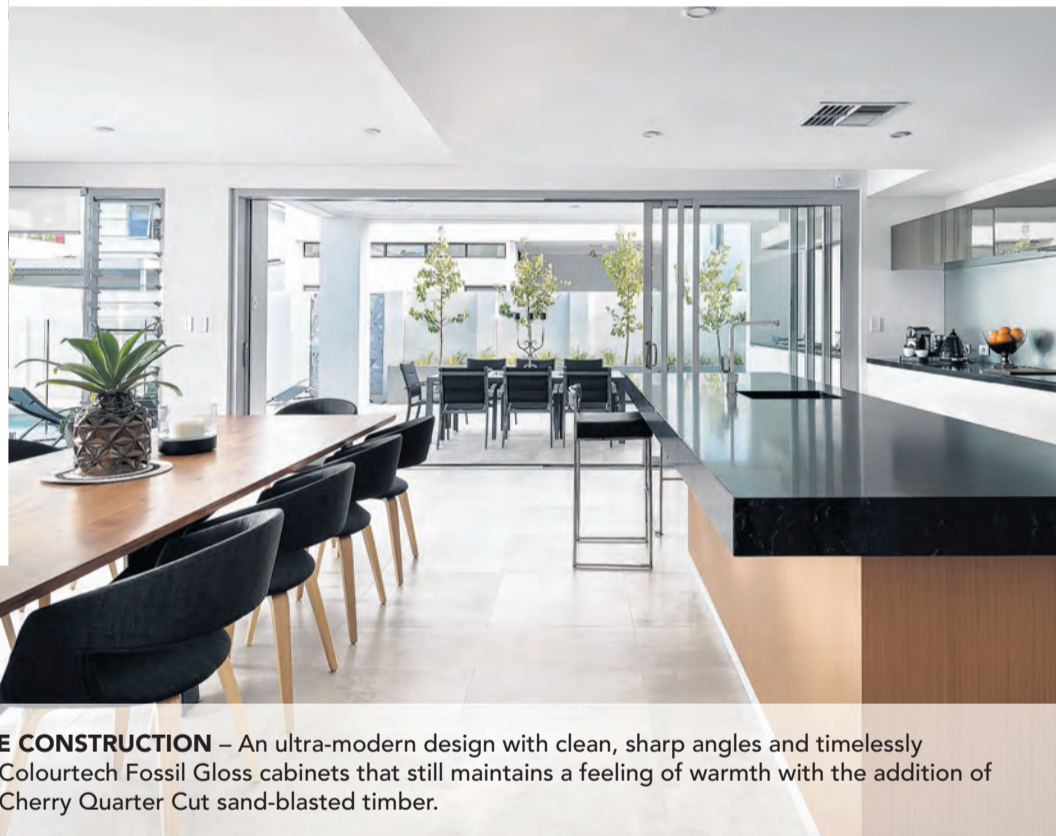

In the HIA WA Kitchen and Bathroom Awards, this week we take a look at some of the entrants in the New Kitchen category.

AQUILA HOMES – Integrated appliances, stylish wide draws and push-to-close cabinetry provides ample room for preparation and cooking in this kitchen. Flooded with natural light, the uncomplicated design uses dark grey natural stone flooring. Moody hues of the charcoal quartz countertop and the white shaker-style cabinetry produce a muted and sophisticated look.

AUSTRALIAN RENOVATION GROUP – This new kitchen utilises views over the internal courtyard pool and features an L-shaped island bench, overhead cabinets designed around the fixed window and a scullery which incorporates its entrance into the kitchen cabinetry.

DEVRITE CONSTRUCTION – An ultra-modern design with clean, sharp angles and timeless elegant Colourtech Fossil Gloss cabinets that still maintains a feeling of warmth with the addition of Navlam Cherry Quarter Cut sand-blasted timber.

VENTURA – This sleek space offers all the essentials, including dual stainless steel ovens, an abundance of overhead storage, a large island bench with breakfast bar capabilities and large walk-in pantry with extensive storage capacity.

LOMMA HOMES – This clean and crisp design incorporates a reflective splashback to showcase amazing river views. The kitchen features a separate scullery with coolroom, walk-in pantry and direct access to the vegetable garden.
