

AQUILA
HOMES

'THE EDGE'

'The Edge' maximizes the long northern orientation allowing living areas to bask in the winter sun whilst protecting them from the harsh summer rays.

The width of the residence allows for significant cross ventilation and breeze paths that promote the purging of hot air from the home allowing cool air to replace it.

Large openings allow for unprecedented interaction between the internal and external living spaces throughout the year to maximize entertaining capabilities.

KEY FEATURES:

- Large Double Garage and Store
- Outdoor Entertaining Zone
- Stone Benchtops to Kitchen
- Master Bedroom including open Ensuite with Semi-Frameless shower screens
- Separate Home Theatre
- Design Flexibility with our in-house award winning designer
- Direct communication with professionals in their field (no sales representatives)

NOTE: Paving extent, furniture and fixtures are shown for representational purposes only.
